WORK EXPERIENCE

31/01/2020 – 15/02/2021

Freelance QA Tester uTest

Companies for which I tested:

- Bosch
- Walt Disney International (Disney+)
- Airbnb
- Bonduelle
- Nike
- Google Play
- Gamehouse Europe

15/02/2021 – 30/04/2024 Portugal

Cloud DevOps Engineer MagicBeans

- Helping clients migrate on-premises infrastructures to AWS Cloud, enabling them to leverage scalability, security and cost-effectiveness.
- Automation of files backup's to S3 buckets by developing Powershell scripts.
- Helping build infrastructures from scratch in the cloud using AWS services and best practices, with the help of Infrastructure as Code (Terraform and AWS Cloudformation).
- Deployment of applications into EKS clusters as well as managing and configuring them, in order to effectively provide services a better performance, scalability, reliability and availability (Using Helm Charts)
- Integration of Kubernetes autoscaling mechanisms in order to minimize costs and efficiently use needed resources (AWS EKS Cluster Autoscaler and Horizontal Pod Autoscaler).
- Enhanced Kubernetes cluster deployments by integrating GitOps tools, such as ArgoCD, enabling developers to deploy their code on their VCS platform (GitLab, GitHub, BitBucket) and automatically synchronize changes in the Kubernetes cluster.
- Developed a comprehensive AMI factory solution (using AWS Image builder, Lambda Functions, SNS, AWS SDK and CDK) streamlining the creation, management, and deployment of Amazon Machine Images (AMIs) to ensure consistency, security, and efficiency across environments. This solution automated the AMI lifecycle, incorporating best practices for patch management, compliance, and version control.
- Assisted a Business Software Solutions client in migrating their new SaaS application infrastructure to AWS. This involved designing and deploying a robust multi-zone infrastructure using AWS services. Key components included configuring EC2 instances, setting up VPC's with appropriate CIDR addressing logic for subnets and VPC's, and implementing security groups to restrict access to EC2 instances. Additionally, configured Route 53 for DNS management and established routing policies. The infrastructure also featured load balancers for traffic distribution, auto-scaling groups for scalability, and S3 buckets for automated file backups.

30/04/2024 – CURRENT Lisbon, Portugal

Senior DevOps Engineer Magic Beans

- Acquired experience in Apigee by deploying APIs using Google's Apigee, for a Telecommunications client. In this client, I developed and managed APIs using Apigee, serving as a crucial security layer and a translation intermediary. My responsibilities included transforming client requests into a format compatible with backend systems and vice versa. This involved defining and structuring responses returned by the backend to ensure they met client specifications.
- In my role leading a development team for a major telecommunications company, I focused on building reliable APIs with Apigee. I made sure to really listen to what the clients needed, turning their requests into clear, actionable tasks that guided the team's work. Each day, I kept the project manager in the loop by sharing updates on what we'd finished, what we were tackling next, and any challenges we might run into. Thanks to this open communication and hands-on approach, we consistently met our deadlines and delivered high-quality results that matched the client's expectations.

EDUCATION AND TRAINING

17/09/2019 – 29/07/2020 Lisboa, Portugal

PgD in Informatics Faculty of Sciences of the University of Lisbon

14/09/2015 – 29/07/2019 Lisbon, Portugal

Bachelor Degree in Informatics Faculty of Sciences of the University of Lisbon

LANGUAGE SKILLS

MOTHER TONGUE(S): Portuguese

Other language(s):

English

Listening C2

Spoken production C1

Reading C2

Spoken interaction C1

Writing C2

Spanish

Listening C1

Spoken production B1

Reading C1

Spoken interaction B1

Writing B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Quality Assurance Testing | Web Development | Operating Systems (Windows, Linux) | Curiosity and enthusiasm for learning new things | Bootstrap | JQuery | HTML5 | CSS3 | JavaScript

BACKEND

Nodejs | PHP | CodeIgniter | Python

CLOUD COMPUTING

Google Apigee | AWS Devops | AWS IAM | AWS CloudWatch | AWS SNS | AWS MGN | AWS Image Builder | AWS Lambda | AWS S3 | Azure DevOps | AWS CodePipeline, CodeBuild, CodeDeploy | AWS ECS | AWS EKS

VERSION CONTROL SYSTEMS

BitBucket | Github | GitLab

DATABASE

MongoDB | SQL (MySQL, SQLite, PostgreSQL, SQL Server) | Pgadmin | AWS DynamoDB

DEVOPS

GitOps | Git | Helm chart | Jenkins | Docker | ArgoCD | Yaml | Postman | RedHat Openshift Container Platform | JSO N

COMMUNICATION AND INTERPERSONAL AND INTRAPERSONAL SKILLS

Skills

Intrapersonal Capabilities:

- Curiosity: Continuously eager to learn new skills and explore diverse topics for broadening general knowledge.
- Persistence: Committed to achieving goals despite any challenges or obstacles that may arise.
- Resilience: Able to recover and start again after setbacks, open to new possibilities and adaptable to unknown or unexpected situations.
- Proactivity: Taking initiative to anticipate and address issues, driving progress and improvement.

Interpersonal Capabilities:

- Attentiveness: The ability to listen carefully and process information correctly.
- Problem solving: Whenever facing a problem my first instinct is to search for a solution and try to find a way to apply it.

- Teamwork: Developed strong collaborative skills through various group projects, enhancing my capacity for effective group work.
- Respect for others: Consistently demonstrating consideration and regard for the perspectives and contributions of others.

CERTIFICATES

31/03/2021

AWS Cloud Practitioner

23/08/2021

AWS Developer

30/12/2023

GitOps Fundamentals - ArgoCD

21/09/2022

Terraform Associate

26/09/2021 – CURRENT

EF Set - English Certificate

Link <https://www.efset.org/cert/gLxaRV>

24/09/2024 – CURRENT

Deploy and Manage Apigee X Skill Badge

09/2024 – CURRENT

Develop and Secure APIs with Apigee X Skill Badge
